

SAFETY AND OCCUPATIONAL HEALTH POLICY

The safety, health and well being of employees, contractors and the community are of core value to Summit's operations. A healthy workforce contributes to business success.

Summit's aim is for zero injuries. In order to achieve this objective Summit will:

- establish a mindset in the workforce that injuries are preventable;
- implement and assign accountability for the Company's policies, standards, guidelines, systems and procedures;
- encourage safe behaviour by employees and contractors;
- promote management leadership in safety;
- provide ongoing education and training in safety;
- provide the correct and safe equipment to the workforce; and
- conduct hazard identification, risk assessments and propose risk management measures.

The safety and health performance of Summit Resources will be measured through internal and external auditing and reporting processes.
