Summit's exploration strategy has defined eight primary targets now ready for drill testing all of which have the potential to host large, world class, base and precious metal deposits.

- ▶ **Bronco Cu & Pb Zn Ag**
- ▶ **Bronco North Cu Zn Pb Ag**
- ▶ **Barkly Anomaly Cu Au**
- ▶ **Pipeline Cu**
- ▶ **Bonus Basin Cu Co**
- ▶ **Gidya Ironstone Cu Zn Au**
- ▶ **Kennedy Ironstone Cu Co Au**
- ▶ **Gidya Flats Cu Au Co**

### Summit's project includes:

- ▶ Northern strike extension of MIM's George Fisher and Hilton mines
- ▶ Discovery of world class IOCG
- ▶ Valhalla U Cu Au deposit
- ▶ Exposed and drilled copper mineralisation in Bonus Basin
- ▶ Roxby Downs and Ernest Henry style magnetic anomalies
- ▶ Close proximity to world class base and precious metal deposits
- ▶ Large tonnage multi metal targets in Proterozoic rocks
- ▶ Dominant tenement position in Western Fold Belt with 3600km<sup>2</sup> tenement holding
- ▶ Excellent access starting 20 kilometres north of Mount Isa city
- ▶ Granted tenements with no Native Title issues
- ▶ Drill targets ready to test
- ▶ 100% tenement title
- ▶ Advanced cost effective exploration program

Summit has commenced over 10,000m of drilling costing in the order of A\$2.0 million to drill test eight targets.
